+Course cost does not include additional supplies. For more information about classes or possible supply fees see course descriptions.

Non-Credit Course Descriptions

Astronight Look through the RLC telescope and search for Pleiades Cluster, the majestic rings of Saturn and Orion's Nebula. Sept 22 is Autumnal Equinox, a significant day in astronomy. Be sure to dress for the weather as we will spend the evening outdoors. Greg Hollmann, our instructor, will point out additional bright stars and constellations as he captures your attention with stories of ancient mythology and modern science as it relates to the heavens. If bad weather threatens, the instructor will present an alternate program. Boy Scouts attending this class will meet many of the requirements for the Astronomy Merit Badge. Participants 12 and under must be accompanied by an adult.

Digital Scrapbooking Digital Scrapbooking is an incredibly fun way to join your computer with your passion of Scrapbooking. Using a graphics

based program like Microsoft PowerPoint, you can create eye popping layouts with your favorite photos. This program is probably already on your computer if you are using Microsoft Office software. The pages can be printed onto cardstock or can be viewed as a slideshow on your computer. Background music or sound effects can be added as well! You will need to bring 25-50 digital photos on CD or flash drive and a 1-2 gig high capacity flash drive to save your work. Students must be 14+ or accompanied by an adult.

Kids in the Kitchen Halloween This fun-filled class will include baking and painting for the Halloween holiday. You will cook and stir to your heart's content, and paint your very own pumpkin! Supply fee is \$5 payable to the instructor. Students must be 6+ or accompanied by an adult.
